Dear Elene, Lars-Erik and Ledarhogskolan Friends!

Here come a few images again so that you know how "your" children develop. Jose Catalinio is in 5th grade and who would

have thought that the boy would come such a long way. He is doing well, although we need to give him some special time on certain days. If he gets too excited or upset he can not talk. He walks well and participates in all

activities. On Friday the school will join a soccer competition and he will also participate.

Norma has started to talk some simple words and communicates in her own way with her many siblings and cousins. They seems to understand her and treat her like any other child She is doing amazingly well and her weight is fine. **Thank you for all your support!!** Many warm regards from all of us.

Pict. To the right-celebrating Mother's Day which all women enjoyed much.
